For the safety of all participants: parents and spectators MUST stay off the course

- All racers should stay on the course at all times. If a racer must leave the course for any reason, they must re-enter the course from the place they had left the course.
- The team member and equipment that start a leg must finish that leg.
- The race committee reserves the right to **DISQUALIFY** any entrant who does not abide by the race rules, interferes with other competitors, displays unsportsmanlike conduct, intentionally covers the race number, or has help from someone other than those designated with a support bib.
- Any assistance by anyone other than a race official will be grounds for immediate disqualification. Monitors will be present on the course to provide any needed assistance.

- **STAMPS:** The runner will be given a **stamp on their racer tag** (attached to the wristband) at the start line prior to the runner starting the race. The runner and biker will be given a **stamp on their racer tag** at their designated turnaround (color-coded to match their bib color). Wristbands will be passed to the next team member at each exchange and each team member must wear the wristband through each leg of the race. The wristband must be turned in to race officials at the finish line. **Failure to get ALL stamps ON THE RACER TAG will result in disqualification even if the needed stamp is on the hand of the team member.**
- **Support: Only SOLO competitors** are allowed **ONE (1)** support person to help with equipment changes during the race. An "S" (Support) bib will be provided in your packet for this purpose. **Please verify that the support bib is in your packet before leaving packet pick-up.** Only persons wearing numbers (racers) and "S" bibs (support members) are allowed in the exchange areas. If you have a child who is not a solo racer, but will be completing back-to-back legs of the race, you must notify race officials at packet pick-up so you can be given an "S" bib if you wish to help your child with their equipment during the race.

Finish Line

To help get better and faster results like last year, the finish line will put the finisher through a narrow chute where the bib numbers will be recorded. There is to be **NO** team member crossing the finish line except the obstacle course racer with the wristband. **If the racer leaves the chute prior to having their bib number recorded, attempts to cut in line, or more than one team member crosses the finish line, you will be DISQUALIFIED, even if you finished first!**

Take care of yourself while racing and after the event. Make sure to drink plenty of water, especially if it's hot. ***Remember to have fun and be safe!***
